# JENNIE HYUNJU LEE

Software Development Student

Dear Hiring Manager,

Thank you for considering my application for a Software Developer in a summer intern position.
As a Software Development major student attending at Southern Alberta Institute of Technology, I am excited to apply for the Software Developer summer intern position where I may contribute my academic learning to bring improvement to future and existing programs.

Through the Software Development curriculum, I gained technical experience in a wide range of information technology topics such as object-oriented programming using languages Java and user interface, computer graphic, and web design using HTML, CSS, and JavaScript. My past dynamic experiences have prepared me with the knowledge and skills needed to be an exceptional employee. I bring 4 years of experience and knowledge on design and art theory as I hold a Fine Arts bachelor's degree as well as have taken the course of Media Arts. I am an expert in graphic design software such as Adobe XD, Photoshop, Illustrator, and Premiere as well as Microsoft office suites. In the past, I produced graphic design content and managed social media channels and websites for the Korean Consulate General, Trade and Investment office in Toronto.

Thank you for your time and consideration. I hope you will find my knowledge and experience a great potential. As a Software Developer, my goal is to continually develop technical programming skills in order to present better solutions to assist my employers and their clients to achieve their goals. I would greatly appreciate the opportunity to further discuss how I can support the purpose of helping clients thrive and communities prosper through this Software Developer summer intern position. Please contact me hj.jennie.lee@gmail.com I am available for 4, and 8month internship positions starting this May.

Sincerely,

Jennie Hyunju Lee
